

## How to find us ...

### Arrival by train

Take the *S-Bahn* (either S1, S2 or S3) from Stuttgart Central Station (Hauptbahnhof) to station University (Universität). At the way out of the station you can see in about 100 m distance in south-east direction the three-story computer science building (Universitätsstr. 38). The "Institut für Rechnergestützte Ingenieursysteme" (IRIS) is located on the second floor on the south-eastern side.

### Arrival by plane

A taxi ride from the Airport Stuttgart to our institute takes about 10 minutes (10 Km). There is also a convenient S-Bahn connection (S3) from the airport to Stuttgart-Universität (7 stops), travelling time about 15 minutes.

### Arrival by car

Coming from the Autobahn A8 or the Autobahn A81 to the "Autobahnkreuz Stuttgart" follow direction "Stuttgart Zentrum". Then take the third exit marked "Universität". At this exit turn into the "Universitätsstraße". Parking lots are located next to our building (to open the gate just call the secretary) as well as near "Pfaffenwaldring" (see sketch below).
